

TURNING YOUR SUPPLY CHAIN INTO A COMPETITIVE ADVANTAGE

## SKU Management System

The **SKU Management System** enables collaboration between retailers and suppliers to achieve a combined goal of accurate and efficient management of item information. The system allows for electronic SKU submissions from suppliers, online SKU set-up, and automated SKU management workflow.

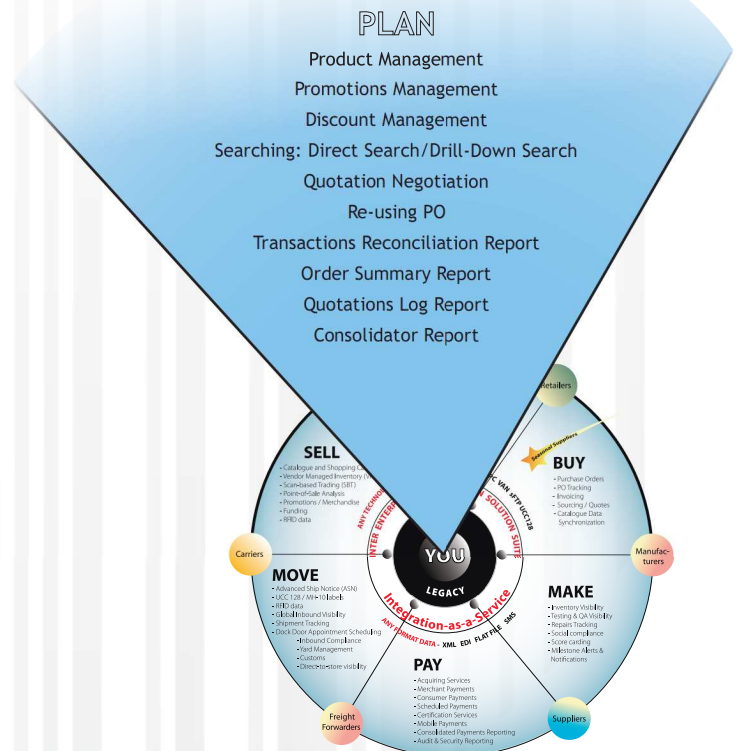

### Functionality

- EDI "832"
- Portal interface for item data reconciliation
- Manual and spreadsheet-based item submissions
- Global data synchronization connectivity

### Benefits

- Increase sales as products reach sales floor faster
- Reduce discrepancies in POs, ASNs and SKU attributes
- More accurate data for inventory management and replenishment
- Reduce cost by eliminating data entry and manual processes

## SKU Management System (cont'd)
